

StoreWell Centre Discharge Hopper Size Guide

We manufacture our own StoreWell hopper range based upon Rowlands hoppers. These are polygon hoppers are of a refined high quality design which have been developed over 30 years.

All hoppers are supplied as standard with a 4" dia. blow & 6" dia. exhaust pipes, and also feed level sight glasses. Hoppers come in plain galvanized finish but for personal preference or local authority planning requirements hoppers can be sprayed in a range of landscape blending colours. The hoppers are constructed from galvanized steel sheets, with the steel support structure from heavy gauge hot-dip galvanised steel sections. This gives our hoppers a low maintenance lifespan of 25 to 30 years when correctly cared for.

Model	Capacity			Overall Height		Diameter	
	Tonnage	Cu. Metres	Cu. Feet	Metres	Feet	Metres	Feet
S616	11	17.4	616	5.84	19' 2"	2.64	8' 8"
S731	13	20.7	731	6.44	21' 2"	2.64	8' 8"
S847	15	24	847	7.07	23' 3"	2.64	8' 8"
S842	15	23.9	847	6.28	20' 7"	3.01	9' 10"
S993	18	28.1	993	6.88	22' 7"	3.01	9' 10"
S1145	20	32.4	1145	7.48	24' 7"	3.01	9' 10"
S1295	23	36.7	1295	8.08	26' 6"	3.01	9' 10"

Note: Tonnage capacities based on pellets at 650 kg / m³

Extras:

- ✔ Moist air roof vent (standard on dairy hoppers)
- ✔ Side & roof ladders
- ✔ Bag-off chute
- ✔ Additional sight glasses
- ✔ Outlet adaptors
- ✔ Side access / inspection door
- ✔ Other custom parts & equipment

All hoppers in our range can be recycled.

Also available Storewell side discharge hoppers, Crowley centre discharge hoppers, Chore-Time augers, milking parlours, large range of spares and hopper relocation service.
